

### *Ingredients*

2 slices bread, any type, nice and firm

2 eggs

Salt and pepper to taste

Tabasco

Honey, syrup, or jelly to taste

### *What To Do:*

Using a cookie cutter, cut a hole in center of each slice of bread, large enough to hold an egg. In a skillet on medium high heat, melt some butter, add the bread, and break an egg into each hole. As the whites cook, flip each slice to continue cooking the egg. Remove eggs promptly when bread is browned, salt and pepper, and add hot sauce, if desired.

Serve immediately, and feel free to drizzle with honey or syrup, or add your favorite jelly.
